BUSINESS MODEL

A SUSTAINABLE AND PROFITABLE APPROACH TO EV CHARGING

Revenue Streams

- **Charger Sales and Installation:** Direct sales to residential, commercial, and government customers.
- **Pay-Per-Use Charging Stations:** Revenue generated from charging fees at public and private locations.
- **Subscription Services:** Recurring revenue from maintenance, software updates, and premium services.
- **Partnerships and Licensing:** Collaboration with automotive manufacturers, energy companies, and municipalities for broader network integration.

TRACTION
