Cyber-Safe AI 24 & IoT Manager

Innovative Solutions for Modern Security and IoT Management

Represented by : Austin G. Haingura

Founder of Tinura Innovations (TNI)

Overview of Tinura Innovations (TNI)

- Purpose of TNI

- The purpose of TNI is to drive change and innovation through advanced software solutions and technology.
- To develop cutting-edge technology that meets modern needs and anticipates the future challenges.
- To deliver innovative solutions that improve business processes and enhamce user experience.
- Who are we exactly ?

Problem Statements

- Current challenges in cyber-security
- Increasing sophistication of cyber threats.
- Lack of real-time threat detection and response.
- Lack of a super AI driven cyber-security systems.
  - IoT Management Issues
- Difficulties in integrating IoT devices.
- Threats IoT's pose.
- Security Vulnerabilities and inefficiencies in current systems.
- Urgent demand for enhanced and efficient cyber-security and IoT management tools.

Cyber-Safe AI 24 (Cyber-security project)

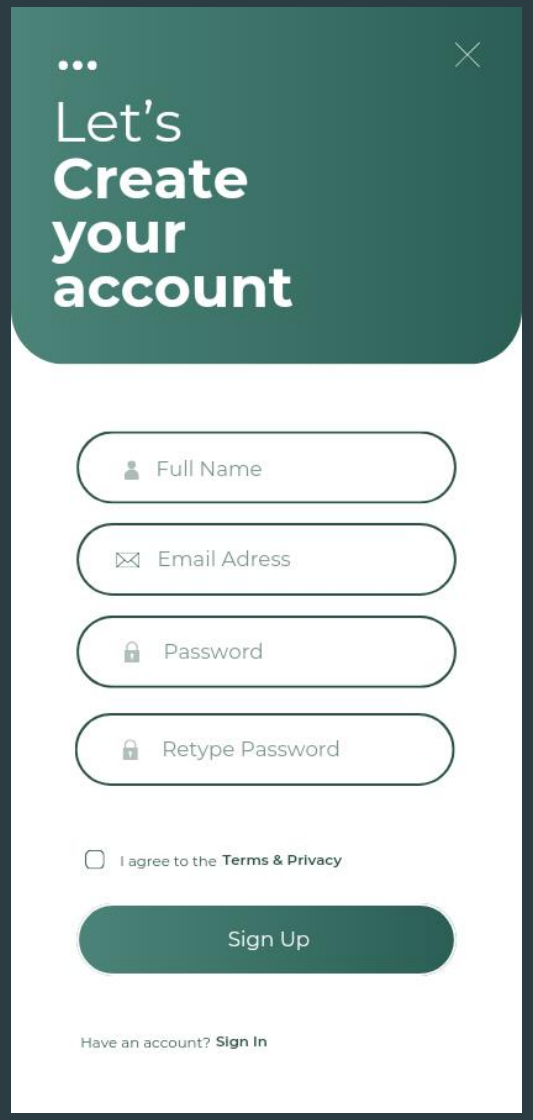

- Cyber-Safe is an advanced AI driven security system being designed to safeguard digital environments.
  - KEY FEATURES
- Real Time threat detection and analysis.
- Automated incident response to neutralize threats.
  - Benefits and Impact
- It will significantly improve the cyber-security posture.
- Will reduce the risk of data breaches and cyber attacks.
- Will enhance trust and compliance for businesses and users.

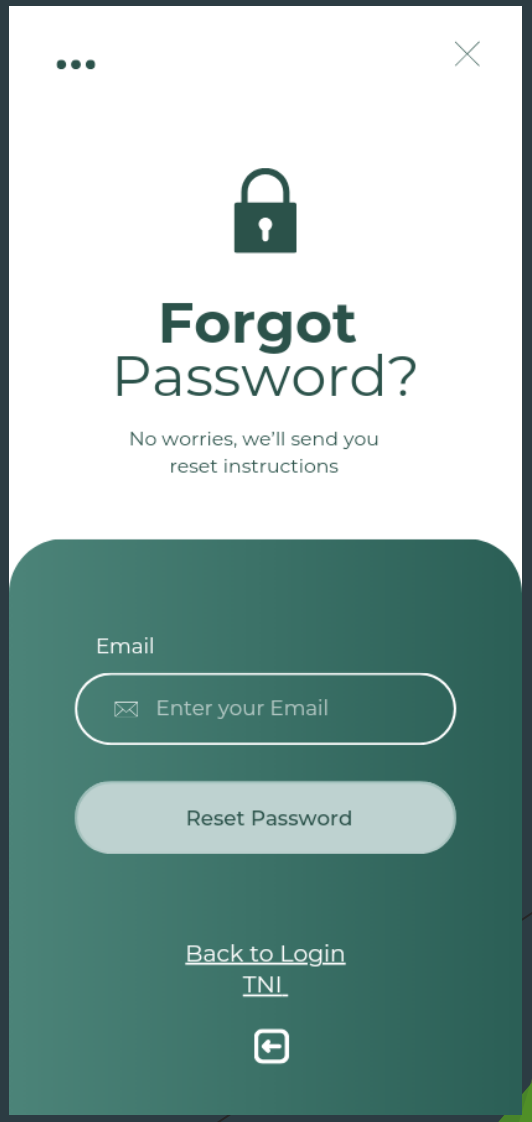

IoT Manager by TNI

- The IoT manager is a platform that is being designed to streamline and optimize IoT device management.
  - Key Features
- Centralized device monitoring and management.
- Advanced data collection and analytics for better decision making.
- Seamless integration to existing systems to enhance operational efficiency.
  - Benefits and Impact
- Will optimize IoT operations , leading to increased productivity.
- Improved security across IoT devices .
- Provide actionable insights through real time analytics.

IoT manager UI

Market Opportunity

- Market Analysis - The cyber-security market is expected to grow significantly due to increasing cyber threats.
- The IoT market is expanding rapidly , with a growing number of connected devices worldwide .
- Target audience – Businesses seeking to enhance cyber-security and IoT management.
- Government Agencies and large enterprises with complex networks.
- Competitive Landscape – Cyber-Safe AI 24 and IoT Manager offer unique integrated solutions not provided by competitors.
- Competitors – Google, Crowd-Strike , local IT firms in Namibia etc.

Business Model

- Revenue streams – Subscription based pricing for continuous access to Cyber-Safe AI 24 .
- Licensing fees for deploying the IoT manager platform.
- Pricing Strategy – Tiered pricing models based on the number of devices and level of services required.
- Distribution channels – Partnerships with technology integrators and resellers.

Technology Overview

- Cyber-Safe AI 24 – being built on a scalable architecture that enables real-time threat analysis and automated responses.
- The IoT Manager platform – Will integrate seamlessly with various IoT devices, providing a centralized management interface.
- Key Technologies - AI algorithms , Cloud computing for data processing , data encryption to ensure security and privacy.
- Development Status – Cyber-Safe AI 24 , is still in development .
- IoT Manager – Is in the prototyping phase , with ongoing testing and refinement.

KEY TEAM MEMBERS

- Austin G. Haingura – Founder of Tinura Innovations (TNI) , Leading the projects.

- Jesaya Matheus - Research Specialist , leading the research and development processes.

  - Contact details

- EMAIL : tniexecutive@outlook.com or austinhaingura@outlook.com
- Email : tinurainnovations@hotmail.com
- Tel : + 264 81 390 6697
- Email: jesayamatheus5@gmail.com , +264 81 690 7211

Financial Projections

- Initial development costs.
- Expenses.
- Revenue Forecast.
- Funding Requirements and support .

Conclusion

- Summarization
- CALL TO ACTION – Interested parties should contact us to explore partnership opportunities.
- Next Steps include further development and market rollout.

THANK YOU !!
